Room to Grow this week

Environmental baby step

Hollander Home Fashions has introduced an easy "green" home decoration solution: *Natural Elements* pillows. The new line of pillows, \$10-\$20 at Marshalls, TJ Maxx and Home Goods, is stuffed with polyester sustainable filling made from recycled plastic soda bottles. That may sound like sleeping on a six-pack, but makers tout the pillows as billowy soft, thanks to a bleach- and dye-free cotton shell.
